# PREFACE

## CHARLOTTE, N. C.

### THE TEXTILE CENTER OF THE SOUTH

### Altitude 780 Feet

Twenty years ago the South began to arouse from her bed of rich, deep traditions and bestir herself. There is a new South today—an onward driving, pulsating South in industry, agriculture and finance.

Fundamentally, successful industries develop best where aboundant raw materials, mechanical power and stable population combine. Tremendously rich in natural resources, power and raw materials, the South has strided forward with seven-league boots, and today, the economic advantages resulting from the development of her resources are leading the trail of industry Southward.

This is true, not only in the textile field, where advantageous conditions of power, climate, labor and living conditions at the source of raw materials have already transferred the center of the industry from New England to the South, but in other lines of diversified manufacturing as well.

North Carolina today is the pacemaker of the South; it leads in textile manufacturing and hydro-electric power development and Charlotte is the center of a textile manufacturing territory having 770 mills, operating over 10,000,000 spindles and consuming more cotton than any other section in the world.

It is the center of one of the largest hydro-electric developments in the United States—the total horsepower developed and in immediate prospect of developing being more than a million horse power.

It is the largest center in the South for textile mill machinery and equipment, practically all the large companies in the United States and England handling their entire business in the South through Charlotte offices and plants.

Is the "Southern Market" for dyestuffs—laboratories and offices being maintained here by the leading dye corporations of the country.

Has four railroad lines with over one hundred trains in and out of the city daily, diverging in eight different directions.

Annual payrolls of over 20 million dollars, from the more than two hundred widely diversified manufacturing and industrial plants in Charlotte.

AS A MANUFACTURING CENTER CHARLOTTE OFFERS:

1. Low power for manufacturing purposes.
2. Close proximity to the sources of all material for finished products.
3. Cotton, cotton yarns, cotton seed, cotton oil, tobacco, peanuts, kaolin, wood pulp, lumber, etc.
4. It is the logical location for a manufacturer of commodities for export through the ports of Norfolk, Wilmington, Charleston, Savannah.
5. It offers a very desirable type of high-class labor, available to manufacturers.
6. Mild climatic conditions throughout the year. There are nine months of exceptional open-season weather.
7. The adequate transfer facilities of four railroads with daily terminal facilities of 5,200 carloads.
8. Desirable living conditions and an exceptional residential development.

CHARLOTTE'S TRADING TERRITORY

# PREFACE (Continued)

## NUMBER OF RESIDENTS HAS NEARLY DOUBLED SINCE 1920

### MORE WOMEN THAN MEN

### Fair Sex Outnumbers Men by 2,000—Total Number of Breadwinners Is 41,404

Charlotte will begin the year with a population of more than 80,000 residents within the municipal limits, according to the 1930 census.

It is estimated that the population of Charlotte and its suburbs in 1930 will be in excess of 90,000. An official census taken in 1928 by the U. S. Census Bureau showed a population of approximately 81,000. The 1930 census was 82,645.

### More Women Than Men

An interesting feature of the population statistics as revealed by our survey was the fact that there are more women than men living in Charlotte. The figures were 46,286 women as compared with 44,073 men.

Our survey also showed that the number of women earning a livelihood in Charlotte is nearly half as great as the number of men. The total number of breadwinners, according to the survey is 41,404, of whom 28,139 are men. In 1920 there were only 26,233 wage-earners in the city.

The number of families in Charlotte in 1930 is 20,904, as compared with 10,720 families living here in 1920.

### Persons of Voting Age

There is a total of 52,446 persons over 21 years old in the city, and of this number there are approximately 1,000 more women than men, according to our records.

The number of persons over 10 years old is 71,181, of whom 34,494 are males and 36,687 are females, as compared with 17,419 males and 19,084 females in 1920.

Our survey is based on excess of births over deaths in the city since 1920, the increase in youths of school age, and the increase in domestic water service and other factors having a bearing on population figures.

| 1928 | 7,415,612.00 |

## CHARLOTTE'S GREATEST ASSET

The climate of Charlotte is outstanding, and can be classified as our leading asset. The United States Weather Bureau has been making records of Charlotte climate for the past 44 years and the fact is developed that the people in this city live the year round in a temperature which averages 60.2 degrees. The mean maximum temperature is 69.5 degrees and the mean minimum is 50.9 degrees. The vicinity is favored in wind and rain, in shine and shadow. Agricultural activities may be pursued practically without interruption throughout the year. Further information at

**CHARLOTTE CHAMBER OF COMMERCE**

CHARLOTTE, N. C.

Mecklenburg County Court House, Charlotte, N. C.

# Historical Facts of Mecklenburg County

## THE BEGINNING OF CHARLOTTE

The town of Charlotte, the county seat of Mecklenburg, was incorporated in the year 1768. A courthouse, constructed of logs, had been built in the town a few years previous to its incorporation, and the county court was held there, which probably accounted for Charlotte being selected as the county seat. The court house was located at the intersection of the streets now known as Trade and Tryon Streets.

## SCHOOLS AND EDUCATION

The people of Mecklenburg brought with them, in the settlement of their new country, the love of education. The first schools were conducted in the homes of the teachers or their patrons. Prior to the time of the American Revolution a number of school buildings had been erected. Queens College, or Museum, located within Charlotte, but within bounds of Sugar Creek church, was the most noted school of Colonial times in Mecklenburg county. This college was located on a lot on South Tryon Street where later, for many years, stood the Mecklenburg county court house.

## CHURCHES AND RELIGION

Seven churches of importance in Colonial days in Mecklenburg county were: Sugar Creek, Rocky River, Poplar Tent, Hopewell, Steel Creek, Providence and Centre. The congregations of these early churches were composed of men and women of strong character, high motives and dignified demeanor. To their influence throughout the community and upon succeeding generations may be attributed the fine type of Christian citizenship which has characterized the people of Mecklenburg county. Many members of the families composing these seven Colonial churches have gone out to other sections of the United States, particularly to the southwestern and middle-western sections of the country, to establish homes and to carry with them the fine ideals of citizenship and Christian influence to their Mecklenburg ancestry. Numbers of the descendants of these Mecklenburg citizens who have moved to other parts of the United States make pilgrimages to the old churches to read upon tombstones in the ancient burying grounds the record of the lives of their forefathers. Upon anniversary occasions at these historic churches, all-day services are held and men and women from many distant states are numbered among the persons in attendance.

### MECKLENBURG DECLARATION OF INDEPENDENCE

"Resolved, That we, the citizens of Mecklenburg county, do hereby dissolve the political bonds which have connected us with the mother country; and absolve ourselves from all allegiance to the British crown, abjuring all political connection with a nation that has wantonly trampled our rights and liberties, and inhumanly shed the innocent blood of Americans at Lexington.

"Resolved, That we do hereby declare ourselves a free and independent people, that we are and of right ought to be a sovereign and self-governing people, under the power of God and the general congress; to the maintenance of which independence we solemnly pledge to each other, our mutual co-operation, our lives, our fortunes, and our most sacred honor.

"Resolved, That all officers, both civil and military, in this county, be entitled to exercise the same powers and authorities as heretofore; that every member of this delegation shall henceforth be a civil officer and exercise the powers of a justice of the peace, issue process, hear and determine controversies according to law, preserve peace, union and harmony in the county, and use every exertion to spread the love of liberty and of country, until a more general and better organized system of government be established."

*EVERY LIVE CONCERN SHOULD BE REPRESENTED IN CHARLOTTE*

WE INVITE YOU TO CHARLOTTE

# CHARLOTTE

## THE QUEEN CITY

Charlotte is located in the center of a territory recognized as the most rapidly developing industrial and commercial section in the South. The eyes of the commercial as well as tourist world are focused on the Piedmont Carolinas. The section of which Charlotte is the geographic and industrial center.

Hard surface roads radiate from Charlotte in every direction: Eleven highways entering Charlotte. The National Highway crosses North Carolina State Highway at Charlotte. North Carolina has 9,000 miles of paved roads. Two million people can come to Charlotte from a radius of one hundred miles by automobile, transact business and return home in the same day.

Charlotte is the distributing center of the Carolinas and is the natural radial point for the railroads of this section. There are eight railway lines radiating from Charlotte, this situation making possible a maximum of railway trackage for new industries of various kinds. Charlotte has an abundance of skilled and unskilled labor willing to give an honest day's work for a reasonable wage. Charlotte is not disturbed by continued labor difficulties, strikes and labor agitation.

The quality of Charlotte's water supply is excellent, the supply abundant, with a modern filter plant, completed at the cost of $1,000,000.

Electricity, ample and at low rates, has been probably the greatest factor in the industrial and commercial development of Charlotte.

Charlotte's rapid growth as a manufacturing and business center has developed financial institutions commensurate with the demands of our rapidly growing city and section which they serve.

Charlotte is live, aggressive and progressive.

Charlotte citizens co-operate in matters which promote the civic, commercial and religious and industrial welfare of the community.

Charlotte is a friendly city. She welcomes the newcomer, be he from the North, West, the East or the South.
We hope you will visit our city and experience the Charlotte spirit of goodwill and co-operation.

For information regarding any subject please write the Chamber of Commerce. which will gladly render helpful and understanding service. C. O. Kuester, Business Manager, always ready to serve. Write him direct.

Tune in on WBT, our new 5,000-watt station.

Aviation Center of Carolinas.

TEMPORARY QUARTERS

First National Bank Building, Charlotte, N. C.

**IDEAL LOCATION** **RAPIDLY BUILDING**

# CHARLOTTE, N. C.

## THE LARGEST CITY IN THE CAROLINAS

### INDUSTRIES

*New Industries are moving in,* old ones expanding. Population is increasing rapidly and the Charlotte of today is a bustling city of over 82,000 people. (1930 U. S. Census). Charlotte and suburbs above 95,000.

### GROWTH

This growth has not been haphazard, but is the result of natural advantages being developed by a people of great initiative. *Charlotte has everything to build a great industrial city.*

THE DUKE BLDG.
2-23-28
J.A. JONES CONST. CO.
CHARLOTTE, N.C.

## POWER

Charlotte is the home of the Duke Power Company, operating one of the est hydro-electric systems in the world. Southern electric companies are tied up into a great super-power zone and abundant "white coal" assures ample *power at low cost.*

## LABOR

Labor is the finest in the country today—*native white, sober, industrious.* Labor troubles are practically unknown and the labor turnover is small.

## TEXTILE

*Here the textile development of the South is centering.* Seven hundred and seventy mills operate 10,000,000 spindles in a hundred miles and a great business has grown up in supplying these mills with dyestuff, cotton, machinery and equipment of all kinds, etc.

SOUTH TRYON STREET—CHARLOTTE, N. C.

CHARLOTTE

*Has many distinct advantages to offer the manufacturer*—four competing rail lines, low freight rates, pure water and a convenient location. Henry Ford after careful study, located his mid-South assembly plant at Charlotte and today it is one of the largest units in the Ford chain. Investigate this thriving city. Living conditions are ideal, climate is mild and pleasant, and schools are the finest in the South. Excellent hotels and shops. Cordial social life and four excellent golf courses.

Note—Branch Federal Reserve Bank at Charlotte.

*District office of Bureau of Foreign and Domestic Commerce of U. S. Department of Commerce located at Charlotte, N. C.*

CHARLOTTE, N. C.

# An Ordinance Regulating the Numbering of Houses

## Be It Ordained By the City Council In Regular Session

Section 1. House Numbers. It shall be the duty of the owner of each house or building in the City of Charlotte to properly display on the front thereof, in a position easily observed, the proper number of his house or building, for the ascertainment of which he shall apply to the City Engineer.

Section 2. It shall be unlawful for the owner of any house or building in the City to which a street number has been assigned and affixed, to attach or paint, or paint on, such house or building, any figure tending or purporting to indicate the street number on such house or building, unless the number so indicated be the number assigned to such house or building as herein provided.

Sub-Section 1. Upon notice by the City Engineer to any owner or occupant of any house or building, it shall be the duty of such owner or occupant within ten days after such notice shall have been given assigning to such house or building a number or numbers, to cause said house or building to be numbered as required, at the expense of such owners or occupant.

Section 3. It shall be unlawful for any person, firm or corporation to remove, obliterate, or destroy any such house or building number attached to, or painted on, such house or building, as required to be displayed by the provisions of Section 1 hereof.

Section 4. The following rules shall obtain in the numbering of houses or buildings:

The reference streets for house numbering are North Tryon St. from Trade St to City Limits; South Tryon St. from Trade

(Continued on page 24)

(Continuned from page 23)

St. to Camden Road and Camden Road from South Tryon St. to end and Camden Road Extended along the Southern Railroad toward Columbia to the City Limits; West Trade St. from Tryon St. to City Limits; East Trade St. from Tryon St. to Sugaw Creek and East Fourth St. from Sugaw Creek to Crescent Ave. and Crescent Ave. from East Fourth St. to Crescent Ave. Extended and Crescent Ave. Extended from Crescent Ave. to City Limits. Streets intersecting these streets shall begin at No. 100, the second block beginning at No. 200, the third block beginning at No. 300 and so on.

Sub-Section 1. Going away normally from these reference streets the even numbers shall be on the right hand side and the odd numbers the left hand side.

Sub-Section 2. A separate number shall be assigned for each 25 foot frontage on a street, regardless of whether the lots front on the street being numbered or not.

Sub-Section 3. Other streets not intersecting reference streets and streets which are not extensions of streets which intersect these reference streets, shall begin at No. 100 on the end of the street which is nearest and perpendicular to one of these reference streets, and the same system of numbering the blocks is to be followed out as noted in Item No 1, assigning a new 100 (or block number) to each block, or if a block is 800 feet long or more, with no intersecting street between, then a new block number shall begin at the most logical place for a street to be cut through it, or half way between the long block corners; or, if the street is long enough without intersecting streets, then a new block number shall begin at intervals of 500 feet.

Sub-Section 4. A new block number is to be assigned at each block that enters the street being numbered, regardless of whether the street continues across it, and the block number shall change directly opposite the point where this dead end street enters the street being numbered. In case of a slight off-set in intersecting streets, then of course, the block number will change at the street intersections instead of directly opposite the entering street.

Section 5. Any person, firm or corporation violating this ordinance or any part thereof shall upon conviction pay a fine of $10.00.

Section 6. This Ordinance shall be in full force and effect ninety (90) days from and after the date of its ratification.

All previous ordinances which in any way conflict with this ordinance are hereby repealed.

Ratified this the 11th day of December, 1929.

EDGAR READ, City Clerk.

Putting the Out-of-the-way Business on the Main Street For a Few Dollars

The business that is up-stairs in some building or off the beaten trail can overcome its location—can put itself on the Main Street of Public Attention by advertising in the City Directory.

Your advertisement entitles you to be listed in heavy type under all of the classifications of your business in the new City Directory now being compiled. This makes your business **STAND OUT.** Thousands of people consult this buyers' guide every year.

Thus, for a very small sum you can be located on

**The Main Street of your City Catalog**

for a whole year.

**Commercial Service Co.**

☞The classification by business will be found after the alphabetical arangement of names. For full indices to the contents of the work, see index.

(*) A star (*) is often used in most directories for various purposes. A tar (*) or hand (☞) is used in the Business Department of a directory to lenote a special classification or listing; sometimes in the Street Department, in ront or after a number, to denote a business place; it may be used, at the option f the publisher, to denote a married or single person; it is most generally used efore or after a name to denote a colored person. Its use, however, being so eneral, the Publishers will not assume any responsibility for errors or its vrong use.
